I recommend clicking the Show all settings checkbox, this allows The only thing we need, besides your Windows 10 installation, is a very handy little program known as Classic Shell.. After installing, you can customize Classic Shell's start menu by right-clicking the Start button and selecting Settings.. With Windows 10, Microsoft has tried to create a bridge for users who liked the classic Start Menu and those who love the Start Screen.

Most of us, that includes me, still can't make peace with the concept of tiles introduced in Windows 8.. It's safe to say Yes to it Some of us can't adjust to changes around us, even if it's as minor as replacing morning coffee with a cup of green tea.. All I need is a simple Windows Start Menu, where few of my frequently used items are pinned directly and the rest can be searched easily.. Simply Removing the TilesIf you are fine with the new and improved Start Menu in Windows 10 but still need to get the live tiles out of your way, you can simply remove them.. The Classic Shell program includes both an overhaul to the Start Menu system that allows you to switch out the Windows 8/Windows 10 system for the classic single column Start Menu that harkens all the way back to Windows XP, a.. Let's take Windows as an example With Windows 8, they dropped a bomb on users by taking away the good ol' Start Button and replaced the simple Start Menu with a much complicated Start Screen.. Now the good thing is, if you remove all the tiles that comes default with Windows 10 you will be left with an empty space.. When you do updates to Windows, it deletes some part of Classic Shell's configuration settings such as the 'Pin' context menu action so it has to configure itself to repair that functionality. 773a7aa168 [Powerpoint 2004 For Mac Free Download](#)
